Effective fall 2007 GPA is calculated for Graduate Students.

Forgiveness Policy

ECU students who have been out of school for a minimum of three consecutive academic years may request special readmission. Subsequent GPAs of students readmitted under this policy will be computed without inclusion of previous coursework in which a grade below C was received, noted as indicated in the Undergraduate Grading System. However, this work will be included in calculations for consideration for degrees with distinction.

Grade Points and Grade Point Average

Grade Points are computed by multiplying the number of semester-hour credits by the number of quality points awarded for each letter grade. The GPA is obtained by dividing the total number of grade points earned by the total number of semester hours attempted. The only exception of this is when the student is using either the Grade Replacement Policy or Forgiveness Policy.

Grade Replacement Policy

A student is permitted to use the Grade Replacement Policy a maximum of four times for 1000- and 2000- level courses in which he or she has earned a grade below C. Although the original grade will not be used in determining the GPA of the student, the original grade will remain on the student's permanent academic record and will be included in the calculation for consideration of honors. The replacement grade, or last grade, stands. Students receiving an F on the replacement grade must repeat the course if credit is required for graduation. In the event that the original grade was a D, no additional hours will be awarded.

Undergraduate Probation and Suspension Codes

A student who is not meeting the required scholastic eligibility standards will have one of the following codes printed on the permanent record.

#2 Academic Warning - This code indicates that the student is performing at the required scholastic level at the present time; however, continued performance at this level will, upon the attainment of the next retention period, result in academic probation and inability to graduate during the normal time frame.

#3 Academic Probation - This code indicates that the student has not met the required scholastic standards. If the deficiency is not removed by the end of the next semester of enrollment, the student will be declared academically ineligible to return.

#4 Academically Ineligible - This code indicates the student's scholastic performance has not met the requirements necessary to continue enrollment.

During a period of probation or suspension, a student is eligible to attend summer school at East Carolina University. In this way a student may establish good standing during a period of probation or suspension.

*Entitled to Honorable Dismissal
Unless Otherwise Stated*

The Continuing Education Unit (CEU) is a unit that certifies participation in non-academic credit continuing education programs. CEU credit does not count towards the completion of any accredited degree program at ECU.
